Jackinsky

Huge log.

Small trib.

Mossy, undercut
banks.

2' falls
over log
jam.

Bedrock.

Overhanging tree.

50/50 pools/riffles

High tide to here.

Mostly bedrock banks in ITZ.

Streambed gravel and sand, much brown algae.

Quad: KE B-4

LAT: 55 28' 14"

LONG: 131 19' 35"

LOCATION: Carroll Inlet, 1.3 miles
north Island Point.

TREES: Hemlock/spruce

BANKS: Gravel, stable.

SLOPE: Gentle.

TIDE: Low at survey time.

WEATHER: Overcast, 53 F.

WATER: pH 7.5; 45 F.; light brown,
clear; flow about 10 cfs.

SPAWNING AREA: 186 m²
(10'x400'x50% ASA)

Good rearing (mossy overhanging banks;
good overhead cover; small side pools)
up to the point the stream divides.

No fry observed.
